We create chemistry

SCHAEFFLER

T Systems

Reasons Why

“Never Let a Good Crisis Go to Waste.” (Winston Churchill)

Navigate your Supply-Chain with Catena-X, operated by Cofinity-X

Resiliency

Sustainability & regulatory

Geopolitics & innovation

Economics

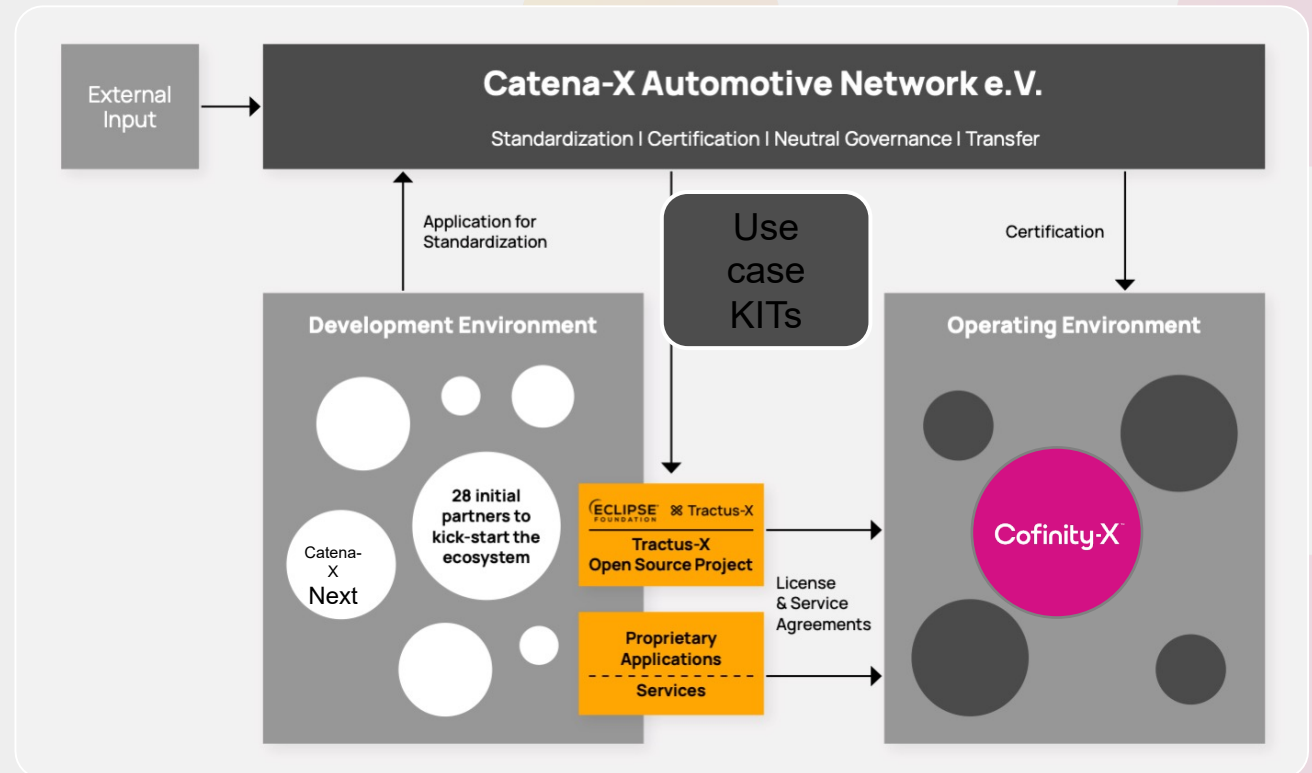

- Perfect storm for suppliers, overwhelming their capabilities, capacity, budget
- Collaboration models need to be inter-operable and capture the entire value chain
- Sharing data is a matter of trust, sovereignty, and standards

Catena-X

The Ecosystem

- First open interoperable data ecosystem
- Started as a closed consortium of 28 members
- Continued as association with 180+ members
- Open-source contributions are managed by Eclipse Foundation.
- Cofinity-X is the first Operating Company

Use Cases Documented by Tractus-X KITs

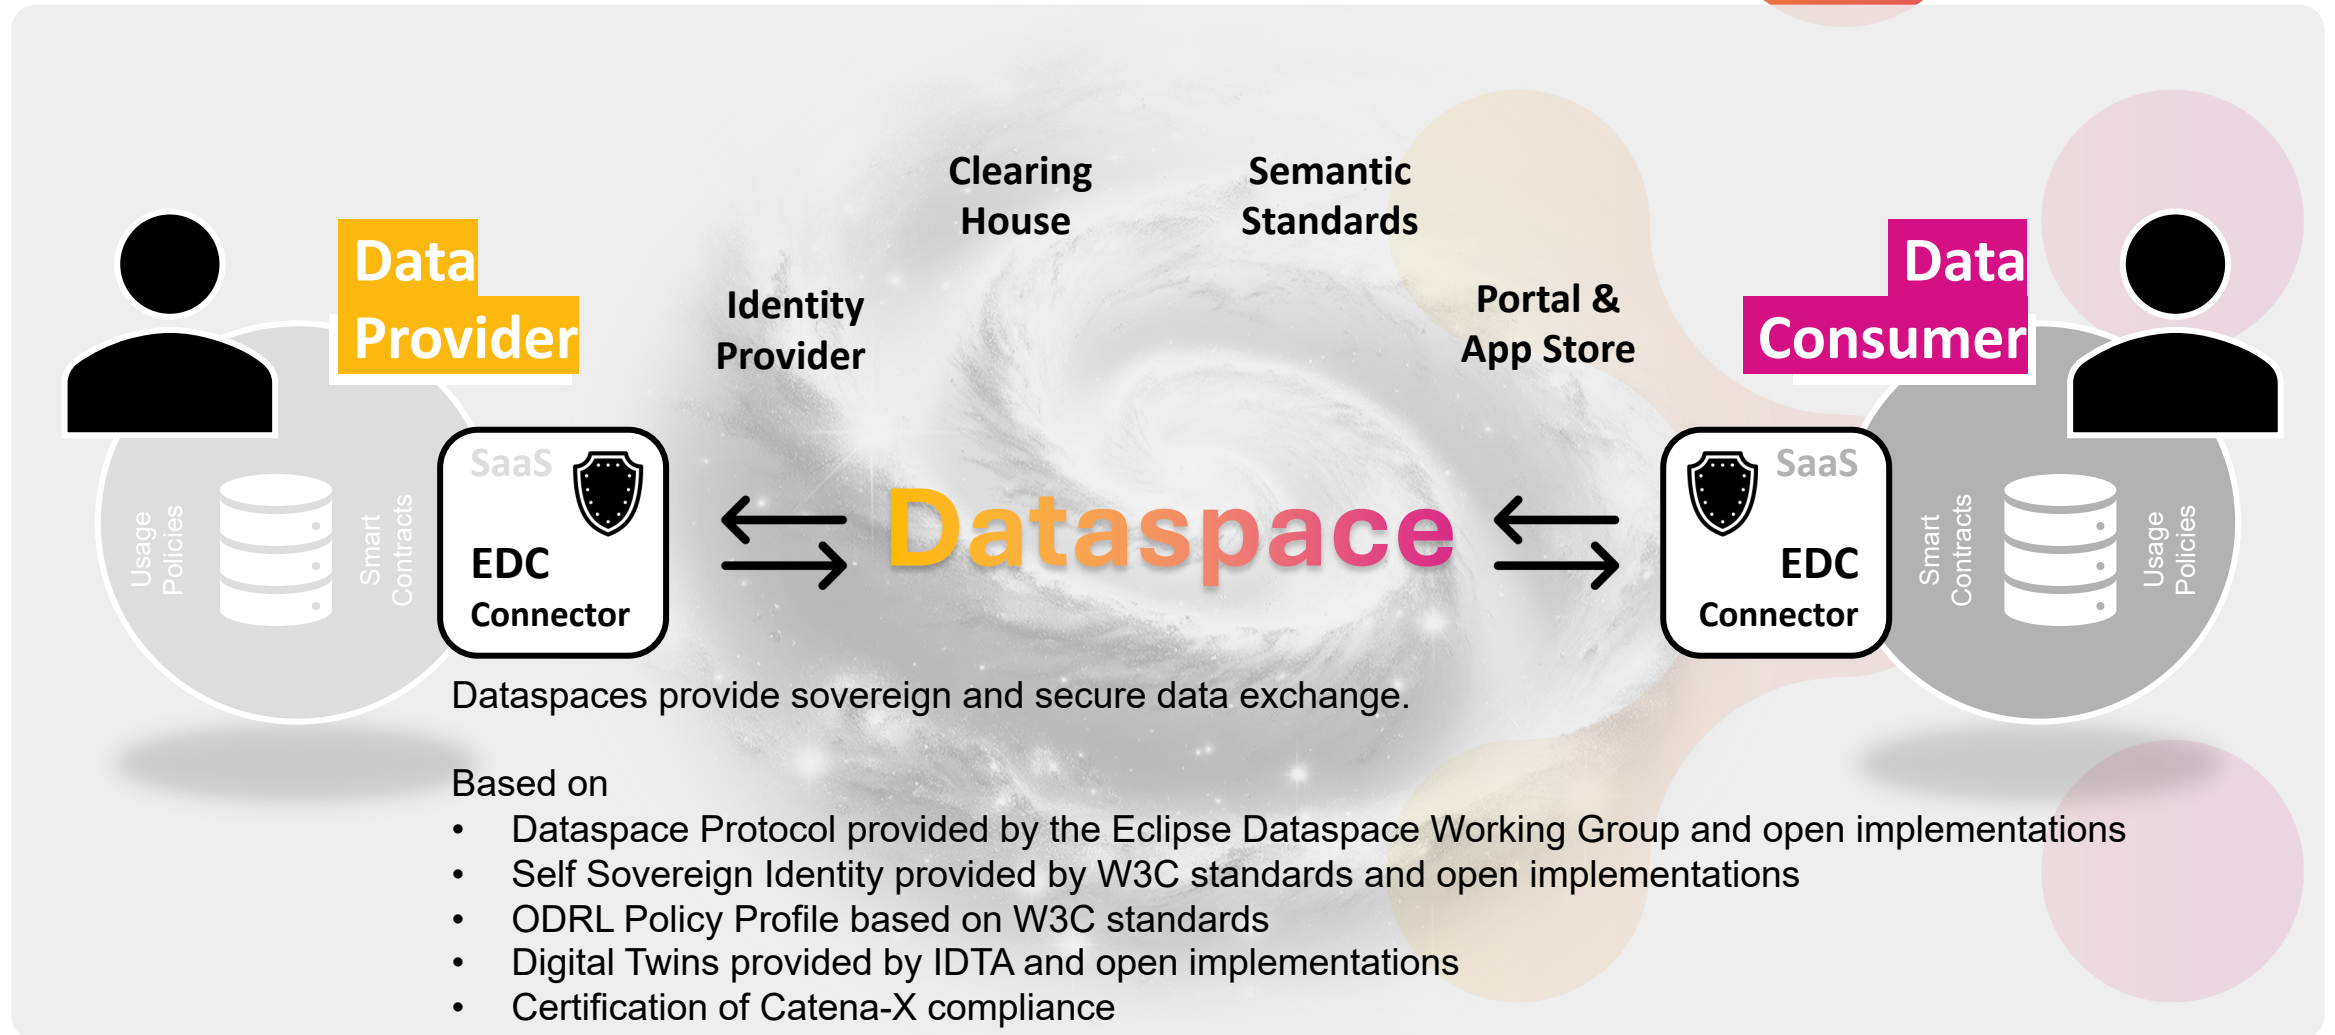

Tractus-X KITs

Aim to accelerate the adoption, development, and operations of the next generation Business Applications and Services.

Collaborative Data Exchange

Sharing Data between Partners

Community-Based-Approach

Challenge

International Corporates

Handle thousands of business partner data every day and need to rely on the accuracy of the data.

59%

... of customer and supplier master data records are partially incorrect

21%

... of business partner records become outdated within a year

19%

... of companies have lost a customer because of inaccurate information's

- Redundant & Complex Data Processing
- High Risk of Errors & Lack of Accuracy
- High Manual Decentralized Effort

Solution

Building up a community to profit from more efficient and accurate business partner data management.

Smart International Corporates

Deduplication
